Boehringer Ingelheim distributes this patient care questionnaire in cooperation with CHEST and subject to the following disclaimer. This patient care questionnaire has been developed by the American College of Chest Physicians ("ACCP") through its Interstitial and Diffuse Lung Disease NetWork (the "NetWork") to assist in patient care. It has not been validated to prove that its use will assist in diagnosis. Further, some causes of interstitial lung disease have been left off the questionnaire to save space. Questionnaires are not medical advice, and do not replace professional medical care and physician advice, which always should be sought for any specific condition. ACCP and its officers, regents, governors, executive committee, members and employees, as well as the NetWork members (the "ACCP Parties") disclaim all liability for the accuracy or completeness of a questionnaire, and disclaim all warranties, express or implied. The ACCP Parties further disclaim all liability for any damages whatsoever (including, without limitation, direct, indirect, incidental, punitive, or consequential damages) arising out of the use, inability to use, or the results of use of this questionnaire, any references used in this questionnaire, or the materials, information, or procedures contained herein, based on any legal theory whatsoever and whether or not there was advice of the possibility of such damages.
